

THE BRITISH COLUMBIAN.

No. 49, Vol. 4.

NEW WESTMINSTER, WEDNESDAY, AUGUST 3, 1864.

Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and is delivered by Mail and Express to all parts of the Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 3, 1864.
EXPLORATION.

It would appear that the result of the public meeting on Wednesday is not satisfactory to many—perhaps we might say a majority, of the community. While all admit the paramount importance of opening a coal field in this neighborhood at the present juncture, yet the propriety of confining our attention to that one branch is by no means so universally admitted. From information placed before the public meeting it would appear that little exploration will be needed, that, in fact, the localities being already ascertained, it only remains to test those seams, and, if they should prove satisfactory, develop them. This will be a very simple matter, and would be the more legitimate work of a joint stock company. It is well enough for the public to take the preliminary steps, and then hand the thing over to an organized company; and this we hope to see done as early as possible; for, unquestionably, the development of a good coal field near New Westminster, just now, would be of the very greatest colonial importance, inasmuch as it would enable the Government to make much better terms with a steam ship company than could be done had supplies of coal to be brought from abroad.

It does appear to us, however, that, in addition, to testing these seams of coal, more or less might be undertaken in the shape of general exploration throughout the district. It is really unaccountably strange that, although there is a general impression that gold and silver can be found in paying quantities within a day's journey of this city, no organized effort has yet been made to test the matter. The people of New Westminster in this matter belie their well earned character for energy and indomitable perseverance. Look at Hope, Yale, Lytton, Douglas, Lillooet. Every one of these places has sent out organized expeditions to search for minerals in their respective localities, and have spent considerable sums in testing discoveries. But here we have been sitting for five years, twiddling our thumbs, so far as this matter is concerned, believing that we have valuable mineral deposits under our very nose, and yet not the first effort has been made to turn them to practical account. We had hoped the public meeting last week would have resulted in some organized movement calculated to repair this neglect. But the very men who might be expected to stimulate and encourage others in such a movement threw cold water upon it by getting up a piteous howl of poverty and helplessness! Has it really come to this? After having fought such a hard battle, and overcome so many difficulties, both natural and political, shall we succumb now, when everything promises so well for the future? We occasionally hear a good deal of growling for want of money and population, and many refuse to do the very thing which above all others would attract both. We are gratified to know, however, that the unexpected turn given to matters at the public meeting is not likely to result in the total abandonment of the object for which it was called, viz: the exploration of this district. There are those in our midst who are possessed of too much enterprise and feel too sanguine as to the result to give up in this way. If the public will not move unaided in the matter private associations will be organized, and more or less prospecting will be accomplished. There is this disadvantage, however: Were there a general public movement in the matter, aid might reasonably be expected from the Government, which could hardly be hoped for in support of organizations of a more private character. Still, we are satisfied that if a properly organized scheme were set on foot, such as would command general confidence, it would be well sustained by the people. While, therefore, we hope to see the Committee appointed on Wednesday evening vigorously prosecuting the important work entrusted to them, we also hope the public will not rest satisfied with the development of that one branch of mineral wealth, but will be ready to sustain any practical and well digested movement for searching for those more precious and, to the masses at least, more attractive metals which all believe to exist in this vicinity.

—Nearly 50,000 acres of land in Canada have been sown with flax this year; ten times as much as last year.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 3, 1864.

Later from Cariboo.

Mr. Brokenbrow of this city arrived from Cariboo on Monday having left Williams Creek on the 25th ult. The weather on the creek was warm and pleasant. The provision market continued to be well supplied. Prices ranged as follows: Fresh beef, 35c. to 40c.; mutton, 45c. to 50c.; veal, 50c.; flour, 36c. to 38c.; bacon, 85c. to \$1; sugar, \$1; candles, \$1 to \$1 25; soap, \$2 a bar; butter (fresh) \$1 25; salt do, \$1; salt, \$1 per 5 lb. bag; potatoes 80c. per lb.; eggs, \$3 per doz.; milk had fallen from \$3 to \$1 50 per gallon; gum boots, \$13; shotels \$2 50; picks \$3; nails 75c. Clothing and dry goods of all kinds have come down very much in price.

The Steele Claim is yielding extremely well, it washed up 700 ounces in one day recently. The Point Claim yielded \$1,200 the first week of pay. The Barker Claim is paying moderately. The Ericsson still washes up from 250 to 400 ounces a day. The Wake-up-Jake continues to pay middling. The Aurora paying about \$700 a day. The Bald Head Co. just struck the lead very rich. The Cariboo Co. paying wages. The Prince of Wales a little over expenses. The Richfield, full of water. The Hilsonian struck it—\$1 75 to the pan. The Caledonia Claim is yielding from 150 to 200 ounces a day. The Diller Claim continues to pay very large.

On Lowhee Creek the Collins Co. had struck it very rich—beautiful gold, about the size of white beans.

On Grunse Creek the Salt Spring Co. had struck it very rich.

On Nelson Creek good prospects had been struck. On Jack-of-Clubs several companies were nearly down. On Lightning the Butcher Claim continues to pay well. Major Thorp disposed of his interest in this claim, and has left for the Kootenai mines. The new diggings recently struck continue to excite much interest. The discoverers, three or four in number, keep the locality as secret as possible, in order that they may have an opportunity of securing the richest ground before a rush takes place. Everyone feels confident of the extreme richness of the diggings, and about 800 men had left the creek in search of them in various directions. The general impression is that they are in a westerly direction, about two days travel from Williams. The crops on the way side are looking very well.

News from the Chilcooten Country.

Strange as it may appear, we are yet without any official intelligence from the Indian expedition. Although messengers are said to have arrived at Alexandria yet no dispatches have reached the Colonial Secretary. The reported death of Mr. McLean is, we regret to say, substantially confirmed. It appears he went out some distance from camp with an Indian guide to reconnoitre. The Indian, hearing the click of a gun in the woods, warned McLean of the proximity of the enemy, and advised him to lie down. This he declined to do, and the next moment he was shot dead. The Indian overheard the enemy laying their plans to surround and kill him, and, hastily crawling under the bushes, he succeeded in making good his escape to camp, where he gave an account of what had happened, and McLean's body was brought in.

It was understood at Alexandria that the Governor had reached within three days travel of that place, and had put back to camp at Puntzen Lake, for what reason is not known. We learn that 30 of Mr. Ladner's mules left Alexandria on the 27th ult., freighted with provisions for the expedition, and that five fresh volunteers went out with the train. We believe much dissatisfaction is felt amongst the men on account of the strict discipline respecting shooting Indians indiscriminately, the general feeling being in favor of shooting them as fast as seen. It is really very trying to be kept so long without official intelligence.

The following extract from a letter written by one of the volunteers to a friend in this city, and dated Fort Alexandria, July 26th, may be interesting to our readers:—"Mr. McLean was shot through the heart by Indians on the 17th, and one man wounded belonging to Mr. Cox's party. There have been no other men killed or wounded by Indians. The two expeditions are joined. The strength of the Alexandria party is 65, all told. I have been sent here with a party of eight men to guard a provision train to Beneshee Lake. We intend to clear the Indians out if possible. We believe they are on the Bute Inlet trail. The Governor is still with the party, and going to fight for himself. I believe the Bella Coola are friendly. They dare not be otherwise. Our great drawback is getting grub out for such a number of men.

Customs Receipts for week ending Saturday, July 30th 1864: Duties, £1009 12 3; harbor dues, £26 15 2; head money, £10 12; tonnage dues, £167 13. Total, £1214 12 5.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for the Colony. J. DUNN, in Victoria, and T. B. B. in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 3, 1864.

The News from the East.

We have before us a *Colonist* supplement, containing war news to the 23rd ult., but as it is chiefly devoted to telling what the Federals are going to do it possesses little importance. The Confederate General, Joseph E. Johnson, has been superseded by Gen. J. B. Hood, of Texas, and a battle had taken place between the Federal forces and those under Hood's command, resulting in the defeat of the latter. The Federals were reported in possession of Atlanta, but the report proved false. Four hundred disloyal women were arriving at Louisville to be sent out of the Northern States. An extensive fire raged for several days in the vicinity of Bath, (Me.) running over a space of 6,000 acres and destroying property to the value of many hundred thousand dollars.

The public debt on the 19th was \$1,196,203, 367, against \$1,790,033,669 last year.

The report of an official demand for the surrender of Semmes is unfounded.

The Overland Pacific Mail contract will expire on the 20th of September. The service is still open for those who desire to contract for its performance from the 20th September, 1864, to June 30th, 1865.

Rickler and Banks are reported to have one thousand men in southwest Missouri, threatening our communications with Fort Scott and the southwest. It is believed that 5,000 of Price's men are in Missouri.

The following account is given of Gen. Smith's expedition:—On the 13th the expedition, instead of moving toward Oklaoma as Forrest expected, marched in the direction of Tupelo. Forrest left his position also, and moved for Tupelo. Smith arriving first, obtained a choice position, when a terrible battle occurred. The rebels suffered severely at the hands of our cavalry and negro troops, 1,500 rebels fell into our hands. The same night the rebels, made an assault on our works and were disastrously repulsed. On the 15th another battle occurred, the enemy assaulting our lines three times but meeting with nothing but disastrous repulse.

On the night of the 15th the day's rations were distributed, and the next morning the expedition started on its return, followed at a respectful distance by Buford.

From the night of the 15th to the 19th, the expedition was obliged to subsist by foraging, supplies being entirely exhausted.—On the 30th the expedition reached La Grange with the loss of 500 killed and missing. Two hundred and fifty prisoners were brought in on several occasions. The rebel dead were buried by our men.—Gen. Grierson commanding cavalry says, the rebel loss is not less than 4,000. Rebel dispatches captured admit a loss of 2,400.

The following account is given of Gen. Sherman's engagement on the 20th:—Sherman states that after the battle that day Gen. Howard, commanding the 4th corps, buried 200 rebels in his front, and a large number of the wounded were captured on the field. Gen. Hooker, commanding the 20th corps, advancing his line on Wednesday, met the enemy in the open road, when a desperate battle ensued, lasting several hours. The enemy was thoroughly whipped and driven from the field. After the battle Hooker reported that he had buried 400 dead and that 4,000 wounded rebels lay in his front.—The *Post's* special says Sherman has taken 4,000 prisoners. Our loss 1,500.

New York, July 23.—The *Post's* special says a part of Mosby's Cavalry, 200 or 300, entered West Maryland. It is not known whether there are any more behind.

It is stated that Gen. Rousseau left Decatur on the 10th, on a most important raid, with a force of 20,000 well mounted men, 1000 of them armed with Spencer's repeating rifles. The route taken is one that has never been taken during the war, but must be identical with the track pursued by Jackson in the Creek Indian war. The first point of any importance is Blountsville, 5 miles beyond Coosa River; thence they move rapidly upon Talladega and the nearest bridge or ford over the Talladega River. The route between the two streams is to be very rapidly pursued, and the bridges to be completely destroyed. The passage of the Talladega will probably be made at Topeka. This will bring the force to Dadesville, where there is a mountain road which leads to the railroad at convenient points, where the work of destruction will soon commence. There are 8 bridges on the railroad between Montgomery and Opelika.

Arrival of a Cariboo Express.

TWO HUNDRED THOUSAND DOLLARS IN TREASURE!!

The str. *Reliance* came in from Yale on Monday bringing \$200,000 in treasure. Of that sum \$125,000 belonged to the Bank of British Columbia and was in charge of the Bank messengers; \$30,000 was in Dietz & Nelson's Express, the balance being in private hands.

Arrival of Barnard's Express at Yale.

Barnard's Cariboo Express, which left Richmond on the 25th, arrived at Yale on Sunday, bringing nearly \$200,000 in treasure. There were fourteen passengers in the express stage. Mr. Barnard came through to Yale himself.

A BIG ASSAY!—One hundred and sixty five thousand dollars worth of gold dust found its way into the Government assay office in this city yesterday, a fact which speaks well for the mines as well as for the institution. We are gratified to learn that our assay office is rapidly gaining public confidence.

FROM VANCOUVER ISLAND.—Our excitable Victoria neighbors are in danger of going "Sooke" mad. We observe that although the papers continue to be filled about Sooke yet there is a disposition to tone down public expectation and prepare the excited ones to be satisfied with "poor man's diggings." The steamer *Enterprise* went round on Saturday; but as to how many passengers she carried we are sorely puzzled. The *Express* puts the number at 80; the *Colonist* "nearly 100," while the *Chronicle* avers she carried "two hundred and fifty." Be the diggings what they may, the Governor has promptly appointed a Gold Commissioner and a Chief Constable. The Victoria papers give an account of the discovery of \$5 diggings at Cowichan. We only hope these mines will turn out as well as represented.

A WORK ON BRITISH COLUMBIA BY COLONEL MOODY, R.E.—We learn that such a work is advertised as in press, and to appear shortly in the old country—price 16s. The people here will await the advent of this book with considerable interest.

SURVEYOR-GENERAL TAUCHER arrived from Cariboo on Monday. He has quite recovered from the severe attack of illness with which he was laid up at the Mouth of Quenneville. Capt. Holmes is on the way down, and may be looked for by next steamer.

ARRIVAL OF COAST INDIANS.—A large number of Indians—about 300 we believe—arrived last Sunday from the Coast to trade. They brought great quantities of skins of different sorts.

A DISTURBED ACT.—Some cowardly scoundrel shot a very fine cow belonging to Mr. McRobert last week, seriously injuring the animal. The chain-gang is too good a service for a man who would be guilty of such a malicious and cowardly act.

LUMBER EXPORT.—The str. *Alexandra* took in 80,000 feet of lumber at Webster & Co's Mill on Monday, leaving for Victoria in the evening.

To the Editor of the British Columbian.

CARIBOO, July 23, 1864.

DEAR SIR,—I enclose a list of patients, &c., of the Cariboo Hospital, which may prove of interest to your readers.—I am, &c.,

A. BROWNING, Hon. Sec.

No. of patients from October, 1863, to July, 1864, 32. Place of birth: England, 7; Ireland, 8; Scotland, 3; Wales, 1; Canada, 4; United States, 6; France, 1; Germany, 1; Norway, 1. Died, 3: John Murphy, David Byars, John Dunn. Discharged—cured, 25. In Hospital, 4. Diseases: Fever, 2; scurvy, 2; general debility, 4—one died; fractures, 5; inflammation, 4—one died; apoplexy, 1—died; rheumatism, 3; various, 11.

The Light Ship.

To the Editor of the British Columbian.

SIR,—In the last issue of your paper I notice a correspondence headed "Victori Interference." Will you just allow me to say a word or two about another Victoria interference which is said to have taken place a few days ago. As you are well aware, the Government of this Colony did advertise for tenders to build a Light Ship for the month of the Fraser, said tenders to be received up to Wednesday, the 27th July. On Tuesday evening the 26th the *Enterprise* arrived from Victoria with Mr. Wright, the architect, on board. Mr. Wright sojourned in this virgin city until the following Saturday, during which time a good many surmises were entertained as to his mission. It has, however, leaked out that his object was to make a proposal to build a stationary Light House instead of a Light Ship for the sand heads at the entrance of the Fraser. And, notwithstanding that Mr. Wright's stationary Light House for the shifting sand heads would cost twice the money that the ship would, yet the gratuitous offer from our patronizing neighbors across the gulf has so staggered our youthful Colonial Secretary that it is beginning to be doubted whether or not the Light Ship will be built. Now, sir, if this was Mr. Wright's mission two questions suggest themselves: first, did Mr. Wright come uninvited at the time when the tenders for a Light Ship were to be opened and make a simultaneous, or perhaps I should rather say, simulated offer to build a stationary Light House on a shifting sand bank? If this supposition be correct then Mr. Wright has lent himself to carry out a trick for the purpose of staying for a little longer the proper marking of the channel to the Fraser River. The second question is, Was he invited by the Colonial Secretary to come up and make the proposal? If this last supposition be correct, then it proves that the Government of this Colony is vacillating and don't know its own business. It is to be hoped that the former is the case.

Non-Interference.

A Peep at Mormonism.

The following extracts from a letter written by the Rev. J. Sheepshanks, Rector of Holy Trinity Church in this city, now on a visit to Europe, and which was received by the Rev. R. J. Dundas of Victoria, and published in the *Evening Express*, will be interesting to our readers here where the writer is so well known and so highly esteemed:—

SALT LAKE CITY, June 29.

I have been here a fortnight and proceed in a day or two to New York. In California, I heard dreadful reports, more so than in Victoria, concerning the difficulties, dangers, and fatigues of the Overland Route. Indian robbers, shooting, scalping, no food, alkali filling one's inside with ulcers, people going mad from want of sleep and excitement. Such were the words and ideas dinned into one's ears on all sides; but as I expected, all this was gross exaggeration, and so far I have greatly enjoyed the journey.

I should certainly not advise a Sybarite, an invalid, a hypochondriac, a confirmed fidget, or grumbler to undertake it; those who cannot feed

heartily on beans and bacon, or make a dinner on potatoes would experience considerable discomfort. But in reality I have met with nothing formidable to one who does not make mountains of mole-hills; and I believe I have passed over the worst bit of the way. Not but what I was very glad to rest here awhile after my arrival, I had had no sleep to speak of for three nights (perhaps two hours in all), and for a week had not taken off my clothes. A bath and a lengthy snooze set me quite up however, ready to argue polygamy with any Mormon in creation. I took the Big Trees and Yo Semite on my way, stopped a few days at Virginia in the Washoe district, and thence came on here. You will say, "what do you think of the Saints?" Really, in a few words one cannot say what one does think. The outward scenery is fine, the town being situated in a broad, and now, green valley between two ranges of mountains, some fifteen miles south of the Great Salt Lake. The town is admirably laid out, forming a parallelogram, with clear streams of water running beside the footpaths, and rows of young trees, acacias, etc., that give as the geography books say, "an agreeable shade." The people are clean, tidy, rustic, unburdened, and healthy, with an unmistakable "old country" look about them for, alas, a very large proportion (I should think four-fifths), are from Great Britain. Their outward morality, polygamy apart, is remarkable. There are no saloons, no grog shops, no billiard tables, and only one hotel in a population of some sixteen thousand inhabitants. I have only seen two men the worse for liquor, and they were soldiers—"Gentiles." There are no street-walkers, and I am assured by "Gentiles" as well as Mormons, that there is not a prostitute in the place, notwithstanding that their religion is the most superstitious, fanatical, and blasphemous in the whole world. The more one sees and hears of their belief, the more one is astonished at its absurdities and abominations. It combines all the most flagrant errors of the Mahomedans, the ancient gnostics, and worst of modern schismatics; and in this the majority remain satisfied, though not a few renounce "the faith," and leave, or remaining, fill their life with regrets that they ever came. My worthy friend, Brigham Young, "the President" as he is called, is a courteous, pleasant man, very prepossessing in his manner, but giving unmistakable signs that he has a strong will and is not accustomed to be contradicted. I have the honor of calling on him once or twice and have been very politely received. On the first occasion he invited me to preach to his people on the ensuing Sunday. He rather wanted me to be one of the Speakers, for two or three generally address the congregation at the same meeting; but I told him that if I were to preach I must have the entire service to myself, and he readily assented. The custom is, when they get a Christian and "Gentile" to address them, to put up their ablest speaker immediately afterwards and polish him off. A Methodist minister got dreadfully mauled in this way, I believe, a few months ago. I said some prayer of our Liturgy, those that did not necessitate response, read two chapters from the Holy Scripture, and preached from 2 Cor. V, 20-21. I knew they would not grumble like the "Gentiles" of Victoria and New Westminster at a long sermon, so I gave them an hour. I felt that it would not do to preach directly against them, for, in the first place, it would have appeared bad taste, which, though of little moment in itself, would have prevented what I said from having any effect; and secondly, I knew it would provoke them to set their best men up to bowl me over, and I should have had no opportunity of reply.

However, "liberavi meam animam" in an endeavor to establish the cardinal truths of Christianity and by mentioning as one of the punishments for rejecting the offered "Reconciliation" of the test, God's judgment in often sending "a spirit of strong delusion," quoting and expounding 2 Thessalonians 11, 11-12. In the afternoon, as I expected, the orator of the place was put up, and noticed parts of my address. He spoke very well and correctly; but I don't think he disproved or proved much, and in fact only set forth the claims of Mormonism. His speech was not generally, I believe, thought a success. Of all queer assemblages one has ever addressed, surely this was the queerest. * * * In social matter, polygamy of course gives a peculiar aspect to the place. You go to the theatre, which by the way is an admirably managed institution as only strictly moral plays are allowed, all oaths indecent expressions, and allusions being carefully expunged. No play is given to the players, who are all amateurs; no drinking is permitted, or loitering or congregating round the theatre door. You go I say to the theatre, (at least I did, thinking the whole time, What will my brethren say?) and at the door you see waggons come in from the country, out of which the man helps his 3 or 4 wives, with 3 or 4 babies a piece, and marshals them in, as an old drake does his duck and ducklings, into the spacious building. You go to a charitable concert (as I also did last night), and you sit near three or four pretty modest little children with whom at once you proceed to make friends; a melancholy looking man, pleased at the attention, interposes and tells you he is their "papa," and proceeds, to introduce you to their mothers, "this here's that little girl's mamma," and "this is that next little girl's mamma," and you ask the child nearest you how many brothers and sisters she has, and she says she doesn't in "the least know," and you have promptly to shut up. One cannot avoid reflecting how enormously expensive this style of thing must be. If any of the family go to the play, all must go; if one wife wants an airing, all must be aired; none can be left at home—they would quarrel and fight, if left to themselves, like the foxes and geese that have to be carried over the stream in the old puzzle; and the consequence is, you see a man driving out his wives and their respective progeny in a large wagon, pretty well filled; and for a family picnic, instead of crockery and grub for father, mother, and half-a-dozen juveniles, it has to be provided for six or seven adults, papa and sundry mammas, and brats in proportion. But I must bring my scribbling to a close.

The following extract from the *Alta California's* Utah correspondence, relating to the same occasion, may be interesting:—"The old lady with the spectacles, who does the attendance so regularly, re-wiped her glasses carefully, looking to see that some mischievous Ike had not abstracted the pebbles; the bland old gentleman, who attends to the dozing department, suddenly aroused himself, shook his parti-colored kerchief, and emitted a nasal sound in its ample folds, like the awakened voice of a powerful bassoon, to show that he was wide awake and on the alert; the usual shifting and re-seating and 'fixing round,' betokening something unusual, passed momentarily through the congregation, and the strangers seemed to wonder if the Mormons were accustomed to commence religious worship without the preliminary invocation of the deity. Evidently, a stranger was on the stand. In a moment or two said gentleman commenced his remarks by stating that President Young had courteously invited him to preach, and though he did not say it, he as courteously accepted; consequently Rev. John Sheepshanks, minister of the Church of England, stood before us, giving utterance to his preliminary remarks. He would have wished, he said, to have conducted the meeting according to the ritual of his Church, but that was impracticable, therefore he had to do the nearest thing he could to it—read the usual introductory service, prayers, Gospel, etc., and then commenced his sermon. Selecting a text out of a chapter, he earnestly, and sometimes almost eloquently, urged his hearers to be 'reconciled to God as an ambassador from Christ.' The utmost attention was accorded the reverend gentleman during his remarks, which extended over an hour, and during which he related some anecdotes of his experience among Western and mountain men, that from other lips and on another occasion would have provoked a hearty smile. I was glad to see the courtesy first extended carried far enough to respect the gentleman's feelings on this point, for with him it was anything but a 'goak.' He has been some years in British Columbia, passed recently through San Francisco, and is on his return to his friends and home in England. No doubt he will be able to tell some good things about the Capital of Utah, its inhabitants and public services in the Bowery, as he calculates to remain here for a week or two longer."

A SPLIT AMONG THE MORMONS.—Young Joseph Smith, son of the "original Jacobs" who founded Mormonism, having repudiated polygamy as a plank in the platform of the faith of the Saints, and set himself up, (perhaps a little late in the day,) as the successor of his father, in the administration of the spiritual kingdom, with his headquarters at Nauvoo, is at last making some headway in the work of creating a division in the church. The correspondent of the *Chicago Tribune*, writing from the plains, says: "Travelling eastward, also, are several wagons with families of 'Josephites,' as the followers of young Joseph Smith are termed. These are now pilgrims back across the wearisome plains, still with a faith of a haven desired. Having failed to find at Salt Lake the paradise they anticipated, they now turn their eyes to the State of Illinois, in hopes to find a happy land there, under the new leadership of the son and namesake of the original Mormon prophet."

NEW WESTMINSTER, WEDNESDAY, AUG. 3, 1864.

"ANGLO-SAXON" ON THE TRIBUNE DIFFICULTY.
—Dr. Helmcken, who, under the nom de plume
"Anglo-Saxon," writes letters from Victoria for
publication in the *Atta California*, in one dated
July 7th, 1864, after indulging in the usual amount
of exaltation over the mishap with which H. M.
ship *Tribune* met in leaving the river, and after
giving the usual Victorian description of the naviga-
tion to this place, says:—"The people of
Westminster have always maintained that Fraser
River would admit vessels of any size, and the
Tribune was sent there to prove it. The dire
results of the experiment have spread gloom
over that village—because the inhabitants now
see that which they ought to have known before,
that the entrance to Fraser River is dangerous
and difficult for the navigation even of steamers
of tolerable burthen, and still more so to sailing
vessels. It need not be said that real estate,
which had been rising since the arrival of Gov-
ernor Seymour and the speculation thereon at-
tended, has now gone down, down, down! There
let it lie."

Now the people of New Westminster never
maintained that "vessels of any size" could come
here. They do maintain, though, that any vessel
drawing 20 feet can navigate these waters, in
support of which they have the official opinion
of the highest authority. They also maintain
that a vessel can, if desired, be run up to the
sand heads, and can lie there for weeks with the
utmost impunity! So far as the alleged dis-
crepancy of real estate is concerned, the state-
ment is a gratuitous falsehood. Real estate in
New Westminster has continued to rise steadily,
and is still rising, and what is more, will con-
tinue to rise, while "Anglo-Saxon's" Victoria
lots are going "down, down, down!"

THE POPE'S ALLOCATION TO THE EMPEROR
OF MEXICO.—The *Unita Catholica* gives the following
as the allocation addressed by the Pope to the
Emperor and Empress of Mexico, in the chapel
of the Vatican, before giving them communion:
"Behold the Lamb of God, who taketh away
the sins of the world. It is through Him that
Kings reign and princes rule. It is through
Him that legislators administer justice, and
though He sometimes permits monarchs to be
tried, yet it is from Him that all power comes—
from Him to whom all power in Heaven and in
earth has been given. In His name I recom-
mend to you the prosperity of the Catholic people
who have been entrusted to you. Great are the
rights of the people, and they must be satisfied,
but greater and more sacred are the rights of
the Church, the spotless spouse of Jesus Christ,
who has redeemed us with His blood—that
blood which is now to crimson your lips. You
will therefore respect the rights of the people
and of the Church, and will thus labor for the
temporal and spiritual welfare of your subjects.
May this Jesus whom you are about to receive
from the hands of his vicar design to give you
His grace in the abundance of His mercy."

BAPTIST JUBILEE IN THE ISLAND OF JAMAICA.—
On the 23rd of February there was a celebration
at Montego Bay, commemorating the 50th anni-
versary of the landing there of Rev. John Howe,
the first missionary from England. During the
four days' services in the large Baptist chapel,
the school-house, and the Presbyterian chapel,
as many as 10,000 persons from different parts
of the island congregated in these localities.
Not a single "police case" resulted from this
mainmost demonstration. The treasurer's bal-
ance-sheet showed a sum of £1,466, collected
from the congregations for missionary purposes.
There are now 67 churches, with 20,976 members,
and 2,312 inquirers.

BRITISH AND FOREIGN BIBLE SOCIETY.—The an-
nual meeting of the British Foreign Bible Society
was held on the 4th of May. The total receipts
of the year £168,905; more than £1,000 in ex-
cess of any preceding year. The number of cop-
ies of the Scriptures issued were two million
four hundred and ninety-five thousand one
hundred and eighteen. Lord Shaftesbury pre-
sided. The speakers were the Bishop of Winchester,
Lord Charles Russell, Rev. W. Arthur, Rev.
Canon Stowell, Rev. Dr. Edmund, and Rev. C.
H. Spargeon. There were on the platform the
Ambassadors from Madagascar. These indi-
viduals stated "that they had been much struck
with England's greatness and power as a nation
and that they ascribed it wholly to the free
circulation of God's Word among the people."

HOLLOWAY'S OINTMENT AND PILLS.—Fear not.
—Though surrounded by circumstances disad-
vantageous to health, these remedies, properly
applied, will cut short fevers, influenza, in-
flamation, diphtheria, and a host of other complaints
always lurking about to seize on the weak, for-
lorn or unwary. The superiority of Holloway's
medicines over others for subduing disease has
been so widely and fully proved, that it is only
necessary to ask the afflicted to give them a trial
and if the instructions folded round them be fol-
lowed no disappointment will ensue, nor danger-
ous consequence result. In hoarseness and ul-
cerated sore throat the Ointment should frequ-
ently be rubbed on the neck and top of the chest;
it will arrest the increasing inflammation, allay
disquietude, and gradually cure.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINT-
MENT, TO HIS ROYAL HIGHNESS THE
PRINCE OF WALES.

Opinions of the London Press upon Benson's Great
Clock and Watches in the Exhibition, 1862.

"As a sample
of English clock-
work on a large
scale, the works of
this are proba-
bly the finest fin-
ished that have
ever been seen in
this country. No
Chronometer
could be fitted
with more perfect
workmanship."
—*Standard*, June 17, 1862.
"Some of them are of great beauty; and if the En-
glish watch-trade only follow up with the same spirit
and success this first attempt to compete with fore-
igners in decorative watches, there seems to be no reason
why we should not get the trade entirely into our own
hands."
—*Times*, June 23, 1862.
"Ranged around the base of the clock were the
Watches which Mr. Benson exhibited, and which have
been universally admired for the beauty and elegance
of the designs engraved upon them. The movements
are of the finest quality which the art of horology is at
present capable of producing. The clock and watches
were objects of great attraction, and well repaid the
trouble of an inspection."
—*Illustrated London News*,
November 8, 1862.

Watches, adapted for every class, climate and
country, wholesale and retail. Chronometer, Duplex,
Lever, Horizontal, Vertical, Repeating, Centre Seconds,
Keyless, Astronomical, Reversible and Chronograph;

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the
most simple and certain remedy for indigestion, flatu-
lency, acidity, heartburn, colic, constipation, and all the
many maladies resulting from disordered stomach or
bowels. In all diseases it is of primary importance to
set the stomach right. These Pills are purifiers, altera-
tives, and strengtheners of the stomach. They may
be taken under any circumstances. Though powerfully
tonic, and satisfactorily aperient, they are mild in their
operation, and beneficial to the whole system.

Weakness and Debility, Nervous
Irritability.

The wholesale effect exercised by these admirable
Pills over the blood and fluids generally is like a charm
in dispelling low spirits, and restoring cheerfulness.
Their general aperient quality will fit them for a dom-
estic medicine, particularly for females of all ages and
periods of life. They never betray any disagreeable
irritating qualities; they quickly eject all impurities
from the system, and regulate every function of the body,
giving wonderful tone and energy to weak and debilit-
ated persons, while they brace and strengthen the ner-
vous system in a most extraordinary manner.

To Regain Health, Strength and
Vigour.

Whenever persons find themselves in that state termed
a "little out of health," and there are to many causes
at work to shorten life, it is necessary that Holloway's
Pills, the finest purifier of the blood ever known,
should be at once taken, as they not only rid both solids
and fluids of all morbid matters, but regulate all disor-
dered actions, and strengthen the frame in a most ex-
traordinary manner.

Old Coughs, Colds and Asthmatical
Affections.

These Pills, assisted in their action by rubbing Hol-
loway's Ointment very effectively twice a day upon the
throat and chest, and keeping those parts covered with
the preparation, will be found the most effectual reme-
dy for asthma, coughs, colds, bronchitis, and influenza.
These remedies tranquilize the hurried breathing,
soothe the irritated air-tubes, and assist in dislodging
the phlegm which stops up the air-passages. This
treatment has proved wonderfully efficient in not only
curing old settled colds, but asthma of many years
standing, and even when patients who were in so bad a
state as not able to lie down on their beds—lest they be
choked with phlegm.

Derangement and Distention of the
Bowels, Flatulency, Diarrhoea
and Dysentery.

Any symptoms of the above complaints should be im-
mediately met by appropriate doses of these Pills, ac-
cording to the printed directions: delay may be fol-
lowed by disastrous consequences. These Pills are a
certain remedy for all the ailments of the alimentary
canal, they secure the thorough digestion of the food,
and act most kindly on the stomach, liver, bowels and
kidneys. As a household medicine they are unrivalled,
and should always be at hand.

Very Important, of Costiveness
Beware.

Rarely but little notice is taken of costiveness, yet,
at certain periods, it is a great sign that danger is near.
All who are seized with epilepsy and paralysis, have
previously suffered from costiveness. In the former
case the blood flies to the head, a small vein is ruptured
on the brain, and we know the rest. Let wives coun-
sel their husbands, and husbands their wives, never to
go to bed a second night, if the bowels have not been
properly moved during the day, particularly if they feel
stale and drowsy. A few gentle doses of these fine
Pills will regulate the circulation of the blood, and all
dangerous symptoms.

Holloway's Pills are the best remedy known in the world
for the following diseases:—

| | | |
|------------------------------|----------------------------|---|
| Ague | Female Irreg- ularities | Retention of Urine |
| Asthma | Flevers of all kinds | Scrofula, or King's Evil |
| Bilious Complaints | Fits | Sore Throats |
| Blotches on the skin | Gout | Stones and Gravel |
| Bowel Complaints | Head-ache | Secondary Symp- toms |
| Colic | Indigestion | Tic Douloureux |
| Constipation of the Bowel | Inflammation | Tumours |
| Consumption | Jaundice | Ulcers |
| Debility | Liver Com- plaints | Veneral Affections |
| Dropsy | Lumbago | Worms of all kinds |
| Dysentery | Piles | Weakness, from whatever cause, &c., &c. |
| Erysipelas | Rheumatism | |

Sold at the establishment of Professor Holloway,
24, Strand, (near Temple Bar) London; also by all
respectable Druggists and Dealers in medicines through-
out the civilized world, at the following prices:—1s.
1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.

No description of wound, sore, or ulcer can realize the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &
other Skin Diseases.

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as well as forced into them;
this course will at once remove inflammation and ob-
servation. The worst cases will yield to this treatment if
following the printed directions.

Scrofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system render them
more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

| | | |
|---------------------|---------------------------------|----------------|
| Bad Legs. | Chapped Hands. | Scalds. |
| Bad Breasts. | Contracted and Stiff Joints. | Sore Nipples. |
| Burns. | Elephantiasis. | Skin-diseases. |
| Bite of Mosquitoes. | Fistulas. | Scurvy. |
| and Sand-Piles. | Gout. | Sore-heads. |
| Coco-bay. | Glandular Swel- lings. | Tumors. |
| Chieft-foot. | Lumbago. | Ulcers. |
| Corns (soft). | Piles. | Wounds. |
| Cancers. | Rheumatism. | Yaws. |
| Chilblains. | | |

Sold at the establishment of Professor Holloway,
24, Strand, (near Temple Bar) London; and by all
respectable Druggists and Dealers in Medicines through-
